Beeman's BIO "ENGINEERING CHANGE IN MONTGOMERY" Building a Better Montgomery Together

Montgomery Roots and Academic Journey A proud Montgomery native, he graduated from Robert E. Lee High School in 1987 and immediately enlisted in the U.S. Navy. While in tech school, he pursued and earned a technical degree in Engineering and Architectural CAD Design. His academic path continued with a Bachelor of Science in (CIS) Computer and Information Science from Troy State University in 2000. Years later, he completed his (MBM) Master's in Business Management at Troy University, graduating **cum laude** in 2005.

In 1991, he launched his professional career at Goodwyn Mills and Cawood, Inc. (GMC) as a CAD Designer. Over time, he advanced to the role of Civil Engineering CAD Manager, where he was instrumental in the design and development of major projects including the **Patriot Missile Site in Pike County**, **EastChase Lifestyle Center, Deer Creek Subdivision**, **RSA Tower – Downtown Montgomery**, **Hyundai Motor Manufacturing of North America, in Hope Hull, AL** and many other developments in the surrounding River Region. In 2006, seeking new challenges, he relocated to Georgia and joined RCMS Group as their Engineering Project Manager. There, he led civil engineering project teams both domestically and internationally until 2008. Following a company restructuring that year, he transitioned into semi-retirement from civil engineering and returned to Montgomery to establish his own Engineering and Architectural CAD Consulting group.

Midway through 2008, he joined the Montgomery Police Department, driven by a deep commitment to serve and protect the community he always called home. Over the next sixteen years, he dedicated himself to upholding the values of integrity, accountability, and public trust. His tenure included leadership roles across multiple divisions, most notably in patrol operations and traffic homicide investigations, where he worked tirelessly to ensure justice and safety for all residents.

As he advanced through the ranks, he remained focused on mentoring younger officers, fostering interagency collaboration, and implementing data-driven strategies to reduce crime and improve community relations. In mid-2024, he retired from MPD, closing a chapter marked by purpose and impact.

Later that year, he transitioned into a part-time Deputy Sheriff role in Neighboring County, continuing his service in a more flexible capacity. Simultaneously, he expanded his consulting business, **Beeman Enterprises LLC**, leveraging decades of experience in the engineering and architectural industry and advising agencies and organizations on law enforcement best practices, leadership development, and operational efficiency.

Born:	Martin Beeman April 16, 1968 (Age 58) – Montgomery, AL – US
Political party:	Nonpartisan / Apolitical
Education	Troy State University (BS) – Troy University (MBM)
